Fanvil PN24 2-Wire PoE Switch

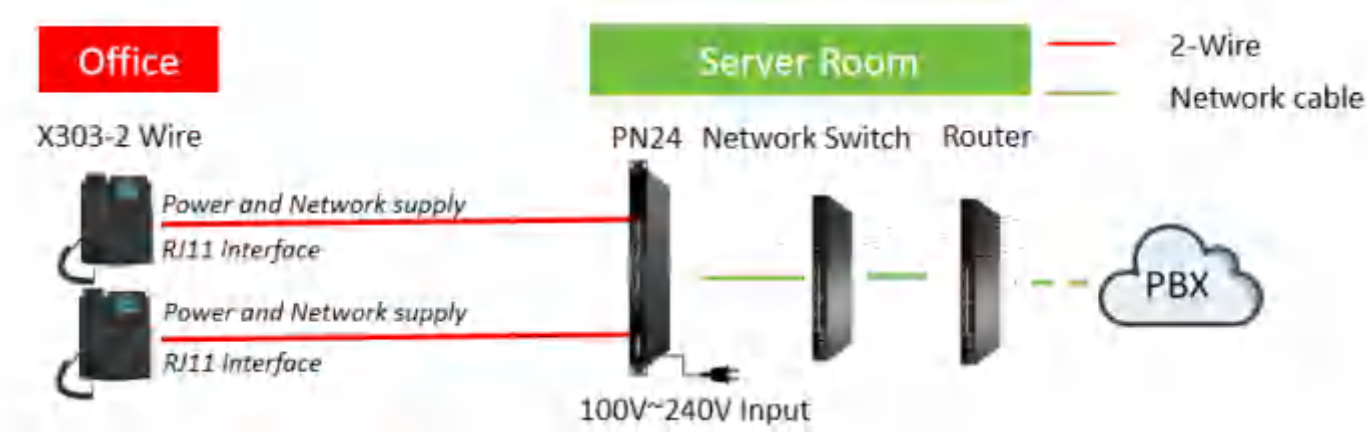

Description

Fanvil PN24 is a 2-Wire PoE switch designed for seamless integration with existing wiring. Its plug-and-play functionality eliminates the need for complex installation or rewiring, significantly reducing both installation time and overall wiring costs. By minimizing potential downtime associated with re-wiring, the PN24 offers a quick and efficient solution for deploying in existing infrastructure. This innovative design makes it an ideal choice for users seeking convenience and cost-effectiveness.

Main Features

- Plug-and-Play. Support network and power supply for 2-wire devices, with a transmission distance of up to 300 meters
- Reuse existing wires (PSTN & AWG cables) to save wiring costs
- Cascade via Ethernet cables for a more stable transmission
- Built-in power supply, supports 100V~240V wide voltage input
- Built-in mode switch (Network& power supply/ Network supply only)
